## Part One: Introduction

### 1.1 Preface

Emergencies are defined as “a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the forces of nature, a disease, or other health risk, an accident or an act whether intentional or otherwise”. Emergencies affect public safety – the health, welfare, and property, as well as the environment and the economy of the County of Renfrew.

The Corporation of the County of Renfrew is comprised of 17 local municipalities and provides services to the separated City of Pembroke, making the combined resident population of over 100,000 (based on 2016 Statistics Canada Census). Each resident of the County of Renfrew is first a resident of a local municipality or the City of Pembroke, hereinafter described as “local municipalities”, it is with these local municipalities that the primary responsibility for emergency management rests.

To assist the local municipalities within the County of Renfrew to protect their residents, businesses, and visitors, the Corporation of the County of Renfrew requires a coordinated emergency response by several County departments, municipal partners, and external agencies. These are distinct arrangements, emergency operations and procedures, from the normal day-to-day operations of the corporation and its departments and address the elements of a fully developed Incident Management System.

In the event of an emergency significantly implicating the resources of the Corporation of the County of Renfrew, every official, department (includes all full-time, part-time and contract), municipal partner and external agency must be prepared to carry out specific and assigned responsibilities. The *County of Renfrew Emergency Response Plan* has been prepared to provide important emergency response information related to:

- roles and responsibilities during an emergency; and
- arrangements, services, and equipment.

It is also important that the local municipalities and their residents, businesses and interested visitors be aware of these provisions. Copies of the *County of Renfrew Emergency Response Plan* may be viewed on the County’s website at [www.countyofrenfrew.on.ca](http://www.countyofrenfrew.on.ca). For more information, please contact:

## 1.2 Aim

The primary aim of this plan is to make provision for the extraordinary arrangements and measures that may have to be taken to protect the health, safety, welfare, environment and economy of the residents, businesses and visitors to the County of Renfrew when faced with an emergency resulting from the effects of a natural, technological, or human-caused disaster. Secondly, therefore, the aim is also to support the local municipalities in the implementation and operation of their individual and collective emergency response plans.

The *County of Renfrew Emergency Response Plan* enables a controlled and coordinated response to emergencies affecting the Corporation of the County of Renfrew and/or the local municipalities and meets the legislated requirements of the *Emergency Management and Civil Protection Act*.

The *County of Renfrew Emergency Response Plan* has been developed to address the elements of a fully implemented Incident Management System and reflects the functions of: Command, Operations, Logistics, Planning, and Finance & Administration and respects the Emergency Response Plans of the 17 Local Municipalities and the City of Pembroke. An in-depth Hazard Identification and Risk Assessment (HIRA) has been conducted, in the preparation of this plan. The County of Renfrew also supports local municipalities in the mitigation of an emergency and provides available resources to assist the local municipalities during declarations at that level.

## 1.3 Declaration of an Emergency

The *Emergency Management and Civil Protection Act* states that:

“The head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect the property of the health, safety and welfare of the inhabitants of the emergency area.” R.S.O. 1990, E.9, s.4 (2).

### 1.3.1 County of Renfrew Declaration

The Warden of the County of Renfrew or his/her designate has the authority to declare a state of emergency for the County of Renfrew. The designate for the Warden has been named as the Chair of the Health Committee of the County of Renfrew. The decision to declare a state of emergency is usually made in consultation with the CAO, CEMC and other available members of the County Control Group.

As the County of Renfrew is comprised of 17 Local Municipalities and provides important service to the City of Pembroke, each with its own Emergency Response Plan, the declaration of a state of emergency at the County level will likely occur in certain instances, including but not limited to the following:

- a situation compromising the critical infrastructure of the Corporation,
- a general health issue identified by the local Medical Officer of Health that may affect the entire County,
- a general situation, such as severe weather which affects a significant proportion of the County’s residents and/or property,
- at the request of one or more local municipalities that have already declared a state of local emergency,
- in situations where the County of Renfrew is requested to support local municipal emergency plans and mitigation measures,
- in situations where multiple requests for services provided by the County of Renfrew overwhelm specific departments and/or the Corporation as a whole, beyond standard operational capability, and
- at the request of the Province of Ontario.

As a resource to assist the Warden, Emergency Management Ontario has prepared a *Checklist in Consideration of a Declared Emergency* for use.

Upon declaring a County emergency, the Warden will notify:

- The Ministry of the Solicitor General,
- Emergency Management Ontario,
- County Council,
- Public,

- Neighbouring community officials, as appropriate,
- Local Member of Provincial Parliament, as appropriate; and
- Local Member of Parliament, as appropriate.

When an emergency exists but has not yet been declared by the Head of Council, County of Renfrew employees make take such actions as may be required to protect the health, safety, welfare and the property of the resident population and the Corporation. Employees acting under these conditions are obligated to immediately notify their supervisor, department head and the Community Emergency Management Coordinator to initiate proper activation and notification procedures of the *County of Renfrew Emergency Response Plan*.

### **1.3.2 Termination of Emergency**

The *Emergency Management and Civil Protection Act* defines that a municipal emergency may be terminated by the:

- Head of Council,
- Municipal Council; or
- Premier of Ontario.

The decision to terminate a declared emergency is usually taken in consultation with the County Control Group.

Upon termination the following will be notified:

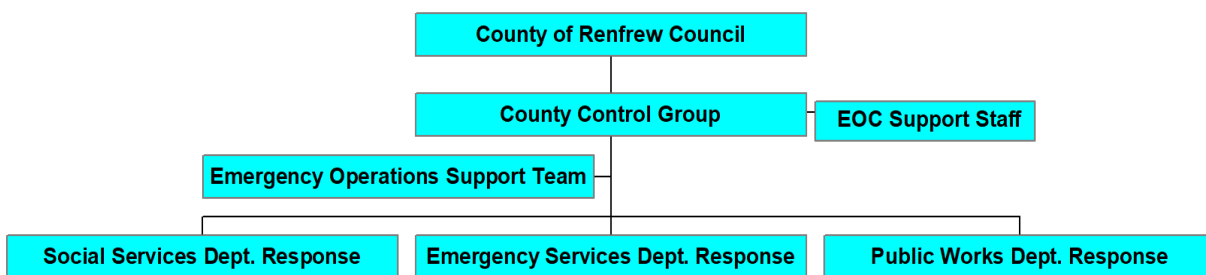

- The Ministry of the Solicitor General,
- Emergency Management Ontario,
- County Council,
- Public,
- Neighbouring community officials, as appropriate,
- Local Member of Provincial Parliament, as appropriate; and
- Local Member of Parliament as appropriate.

Any member of the County Control Group, or Head of Council of a local municipality within the County, may request that the plan be activated. The request will be made to the Warden, or the Chief Administrative Officer, or the Community Emergency Management Coordinator. Only the Warden, the CAO and the CEMC have the authority to activate the *Emergency Response Plan*; activation of the plan is not dependent on, nor synonymous with, an official emergency declaration by the Head of Council. Initial notification attempts will occur by landline and/or cellular telephone, should the primary County Control Group and/or Support Staff member not respond in person to this initial attempt, their alternate(s) will be contacted by the same means. If electronic notification processes and telephone service are unavailable, the Community Emergency Management Coordinator and the Chief Administrative Officer will determine the method by which in-person contact will be made.

## 2.2 Emergency Operations Centre

The Emergency Operations Centre is the central command for the County's emergency response. The Emergency Operations Centre has secure meeting rooms, appropriate communications equipment, rest areas, washrooms, and appropriate areas for meals. The Emergency Operations Centre Staff includes the County Control Group and the Emergency Operations Centre Support Staff.

### 2.2.1 Location of the EOC

The Emergency Operations Centre (EOC) has both primary and alternate locations. During the notification process, direction to which location members of the County Control Group shall report to will be given. The primary and alternate locations of the EOC are geographically separated so that if one site is endangered or rendered non-functional due to an emergency, another should be safe and operational.

### 2.2.2 EOC Procedures

The Community Emergency Management Coordinator, with the assistance of the Operations Officer and other members of the EOC Staff, will ensure that the EOC is operational within 120 minutes. Upon notification, the Operations Manager (CAO) of the County Control Group may contact the Manager of the Emergency Operations Support Team, as required, to support the effective operations of the EOC.

Upon arrival at the Emergency Operations Centre, each CCG member will:

- ii. Fully brief any replacement/relief.

Once the initial response is established, the Operations Officer puts routine procedures into place. The County Control Group functions most efficiently on an Operations Cycle. Each member of the CCG and Support Service Team has specific roles and responsibilities related to the Emergency Operations Centre. These responsibilities are outlined in detail further in this document.

## 2.3 Operations Cycle

Emergency management is cyclical in nature and the Operations Cycle is how the County Control Group manages emergency operations. The Operations Cycle includes regular meetings to share information, discuss actions to be taken and/or issues to be resolved. These meetings are brief and free from interruptions; effective meetings are disciplined in nature.

Initial Operations Cycle meetings may take up to 90 minutes and be held frequently, but as the emergency response progresses meetings should be 30 minutes or less and be held less often. The Operations Cycle meetings are to be chaired by the Operations Manager. The Operations Manager, in conjunction with the Warden and the CCG will determine the meeting schedule. It is important to note that the Operations Cycle should reflect the pace of the emergency to meet the primary objectives of supporting the emergency site and coordinating the overall response.

The County Control Group will convene at the Emergency Operations Centre, usually around a planning board or a map, at which time they will in turn report their department or agency status to the Warden and Operations Manager. In the discussion regarding the decision/actions related to the priority items points concerning challenges, barriers, required resources, and any other relevant information so that timely and informed decisions can be made as a group. It is essential that every member of the CCG, covering each area of responsibility, be heard from during the Operations Cycle meeting process. The County Control Group is a team, and the actions taken by one, or the lack of action by one, may have a significant impact on an effective emergency response.

Specifically, the agenda for each Operations Cycle meeting should consistently include:

1. Current Status of each CCG member area of responsibility; including first and second priority issues for decision/action.
2. List of First Priority Items.
3. Determination of decision/action for First Priority Items.
4. List of second Priority Items.
5. Determination of decision/action for Second Priority Items.
6. Discussion of emerging issues for future planning.
7. Determination of Key Messages for Emergency Information Officer.
8. Time of Next Operations Cycle Meeting.

Once the Operations Cycle meeting is completed, the CCG members will contact their respective departments and partner agencies to pass on relevant information or directives from the CCG. In the time-period following the Operations Cycle meeting and this information dissemination process, CCG members will begin the process of actioning decisions, gathering information, and preparing for the next Operations Cycle meeting.
