

## OPERATIONS COMMITTEE

Tuesday, November 29, 2011

---

A telephone poll was carried out by Mr. Dave Darch, Director of Public Works & Engineering on Tuesday, November 29, 2011 of the Operations Committee consisting of the following members:

Robert Sweet, Warden  
Walter Stack, Chair  
Donald Eady, Member  
Norm Lentz, Member  
Jennifer Murphy, Member  
David Shulist, Member  
Harold Weckworth, Member

---

### Asset Management Technician

Mr. Darch advised Committee members that the Department recently advertised and received job applications for the vacant Asset Management Technician position. He added that the Department would, however, like to solicit a broader interest from qualified applicants and as such will be re-advertising this job position.

Staff is of the opinion that the title “Asset Management Technician” may be limiting the number of applicants and, as such, proposes that the position title be changed to “Infrastructure Coordinator”. Hopefully this will prompt more interest in this position. In addition to the title change, staff will also revise the wording of the advertisement notice in order to attract as many qualified applicants as possible.

In order to affect the title change, Mr. Darch advised that Committee and Council approval is required. Since there is a desire to re-advertise this position as quickly as possible, staff proposes to seek Council’s approval of the title change at its November 30, 2011 Council meeting.

Through the telephone poll, all Committee members concurred with the proposed title change.

### **RESOLUTION NO. OP-C-11-11-106**

Moved by: Mayor Weckworth  
Seconded by: Mayor Murphy

THAT this Committee recommend to County Council that the title of “Asset Management Technician” be amended to “Infrastructure Coordinator”.

CARRIED.
