## County of Renfrew Municipal Class Environmental Assessment Old Highway 62 Bridge Schedule A+ Class Environmental Assessment

The County of Renfrew (County) has initiated a Schedule A+ Class Environmental Assessment (Class EA) to determine the most suitable option in response to the Old Highway 62 Bridge nearing the end of its service life

### How Will This Affect Me?

The Class EA study is assessing various options in response to the Bridge nearing the end of its life service. These options include:

- Closure of the bridge (with and without installation of turning circles);
- Replacement of the existing deck with a lightweight prefabricated deck combined with rehabilitation of the existing mass concrete abutments and wing walls; or
- Removal of the existing deck and abutments and construction of an arch culvert in its place

Public and agency consultation is a key part of the Class EA process. With your input, the Class EA study will identify a preferred option that will benefit the community over the long-term.

### How Do I Get More Information?

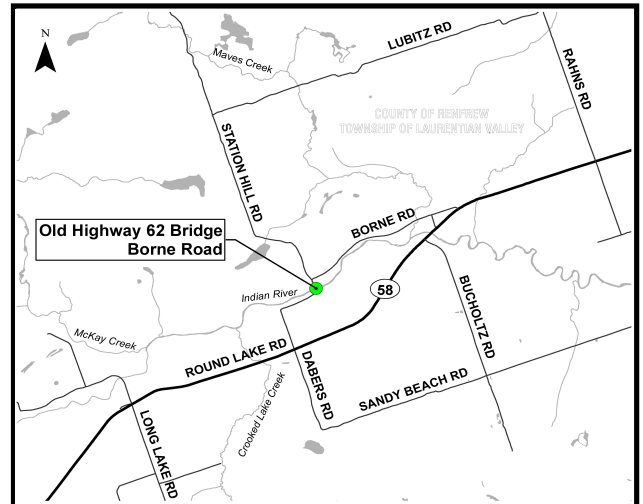

A Public Information Centre will held on February 21st, 2019 in order to receive comments from the Public. The results of the Cultural Heritage Evaluation Report as well confirmation of the Schedule of Municipal Class EA to be undertaken will also be made available at this public information centre. You can contact a member of the study team listed below with any questions or to provide input on the Class EA study.

Katie Morphet, MCIP, RPP
