

NOTICE OF STUDY COMMENCEMENT

County Road 1 (River Road), Sand Point Municipal Class Environmental Assessment

The County of Renfrew is undertaking a Preliminary Design Study for improvements to County Road 1 (River Road) from Toner Road to Mast Road in the community of Sand Point. These works are identified as part of the 2018 Capital Program for the County of Renfrew – Public Works & Engineering Department. The study will follow a Municipal Class Environmental Assessment (Class EA) process including communication with adjacent landowners, as well as other stakeholders.

Subject to the outcome of the study, the County is considering the following along this section of County Road 1 between Toner Road and Mast Road:

- Rehabilitation or reconstruction of 3.0 km of County Road 1;
- Safety improvements; and
- Drainage and stormwater improvements, as required.

An opportunity will be provided to interested persons to attend a community open house. The notice for the open house will be published in a local newspaper and on the County's website through the Environmental Studies link at www.countyofrenfrew.on.ca.

Any information or comments received regarding this study, including name and address, form part of the public record and may be disclosed/made available by the County to such persons as the County sees fit, including anyone requesting such information. Accordingly, in providing any such information, you shall be deemed to have consented to its use and disclosure.
