Home: Fundamental Principle

(SECTION 1 of Fixing Long-Term Care Act, 2021)

The fundamental principle to be applied in the interpretation of this Act and anything required or permitted under this Act is that a long-term care home is primarily the home of its residents and is to be operated so that it is a place where they may live with dignity and in security, safety and comfort and have their physical, psychological, social, spiritual and cultural needs adequately met.

Welcome

On behalf of the County of Renfrew, Residents, Staff, Volunteers, I welcome you to Bonnechere Manor.

Bonnechere Manor is a municipal, 180 bed long-term care home. It is owned and operated by the County of Renfrew and City of Pembroke and has provided quality care to the elderly since 1958. Bonnechere Manor was awarded 'Accredited with Exemplary Standings' with Accreditation Canada during the last review in 2023.

The most recent data on the profile of residents in Bonnechere Manor identifies the average resident is 82 years old. The resident population presents with a wide range of health challenges requiring nursing care that typically includes considerable assistance with personal care. More specialized care such as intravenous therapy, complex wound care, palliative care and dementia care are performed at an expert level in collaboration with the interprofessional care team. Care delivery is predicated on the belief that the personhood of the resident takes precedence over any particular diagnosis. In 1995, residents and staff moved to our current location at 470 Albert Street.

Bonnechere Manor operates under the direction of the Administrator and is subject to the Fixing Long-Term Care Act and Regulations. The Manor has an annual budget in excess of \$14.7M and employs approximately 250 staff. The Home provides 24 hour nursing and personal care, nutritious meals and snacks, activation and recreation, rehabilitation, palliative and pastoral care, housekeeping, laundry and administrative support.

Our Mission is:

With a person-centred approach, Bonnechere Manor is a safe and caring community to live and work

Residents and families are considered an integral part of the care team and therefore are encouraged to become actively involved in the process of care. Your questions and comments are an invaluable source of information toward assuring an informed and comprehensive approach to care delivery. If you have any concerns at any time, please do not hesitate to contact a manager or the Registered Nurse-in-Charge.

The move to a long-term care Home can be an overwhelming experience with the significant amount of information to be absorbed. It is our intent that this Handbook will help ease the transition to living in the Manor. Ongoing information is posted on the Resident/Family Communication Board located by reception at the front entrance.

On behalf of the Bonnechere Manor Resident and Family Councils, we hope you find this information helpful. I encourage you to contact me per below if there is any additional information you may require.

Sincerely,

Mike Blackmore RN BScN MHS GNC(C)

Mission, Values

Mission Statement:

With a person-centred approach, Bonnechere Manor is a safe and caring community to live and work

Values:

Honesty & Integrity / Professionalism / Client Service Orientation / Focus on Results

Continuous Quality Improvement (CQI) Initiatives

Resident Satisfaction Surveys

Residents or their Substitute Decision Makers (SDM) are requested to participate in an annual Resident/Family Satisfaction Survey to provide feedback on the programs and services provided. The results of the surveys are posted on the Resident/Family Communication Board and copied to the Resident and Family Councils. An action plan is then developed by the management team to ensure recommendations or concerns are reviewed and where possible implemented.

Quality Improvement Plan (QIP)

The Bonnechere Manor CQI Plan is developed and posted on the CQI Board in the front lobby. The plan outlines the Home's goals for the year to enhance/improve programs and services for residents and staff, consistent with the strategic initiatives. An interdisciplinary team meets quarterly to review our statistics and make changes as required.

Strategic Plan

The management team, in conjunction with representative stakeholders (Residents, Families, Staff, Volunteers and Board), develops a long-range plan for the Home to ensure its Mission and Values are implemented. The management team reviews this document and develops an annual plan. Key Initiative for 2025 to 2030 are:

Butterfly Approach Model of Care

Emotion-based models of care such as Butterfly Approach enhance resident well-being by fostering a compassionate environment and addressing emotional needs promoting a higher quality of life.

Employer of Choice

Competition for scarce Health Human Resources (HHR) demands an innovative and attentive approach to recruitment and retention.

Clinical Best Practice Leader

The increased complexity and acuity of resident care needs are best supported by evidence based best practice programs.

Safe, Appealing & Technologically Innovative Home Environment

A Home that is a welcoming, modern, safe space for residents, family & staff enhances resident quality of life.

Campus of Care

A continuum of care services for seniors promotes independence and a sense of community while ensuring access to comprehensive care as needs change.

Accommodation

Bonnechere Manor is comprised of six resident home areas (RHAs). Assignment to a RHA is based on the assessed care needs of each resident. The rooms are large enough to accommodate additional furnishings however it is important when considering what to bring into the Home to allow for the resident to safely transfer and easily move about the room and ensure adequate space for staff to provide care for the resident including required equipment.

HMI and HMII home areas have 35 residents and the Pinnacle (secured) home areas have 20 residents featuring:

- Centrally located dining room
- Spacious lounge area
- Spa containing a therapeutic tub, shower and ensuite washroom
- Access to the outdoor courtyards
- Tastefully appointed resident rooms with large windows

Residents may choose a private, semi-private or basic (shared) room. A private room at Bonnechere Manor is approximately 160 square feet of private sleeping and sitting area, as compared to the Ministry of Health and Ministry of Long-Term Care minimum requirement of 130 square feet. The private room has a private ensuite washroom. A semi-private is also approximately 160 square feet of private sleeping and sitting area with a shared washroom. A basic room, accommodating two residents is approximately 150 square feet per resident as compared to the Ministry of Health and Long-Term Care minimum requirement of 115 square feet. A privacy curtain may be drawn separating the two sleeping areas. Both sides of the basic room have a large window. The basic room includes an ensuite washroom shared between the two residents.

Accommodation rates are established by the Ministry of Health and Long-Term Care and are subject to change annually. Residents are obligated to pay for the basic accommodation charge, including during approved leave of absences from the Home (e.g. during a medical, psychiatric, vacation and casual absences). Current rates are posted on the Resident/Family Communication Board or you may contact the Administrative Assistant-Finance at ext. 1243 or direct number 613-433-8306. In order to apply for a rate reduction in the charge for basic accommodation, contact the Administrative Assistant-Finance.

A team conference shall be held with the resident, if they are able and wish to attend and/or their representative, within six weeks of admission to review and further develop the initial written plan of care.

Therefore, all residents will have an annual multidisciplinary resident care conference. A letter will be sent to the resident/substitute decision maker and physician to inform them of the date, time and location of the resident care conference. Food and Nutrition Services (Ext. 2123)

The Registered Dietitian completes a nutritional assessment within 14 days of a resident’s admission in order to identify individual needs, likes, dislikes and therapeutic requirements. Special diets ordered by physicians are provided. The Registered Dietitian monitors residents’ nutritional health and well-being and provide consultations as required. Meal Times: Breakfast-8:30 a.m./Lunch-Noon/Dinner-5:00 p.m.

Staff endeavours to implement a rotation of serving meals that is fair to everyone, but we ask your understanding that there may be exceptions related to medical needs.

In-between Meal Nourishments: 10:00 a.m./2:00 p.m./7:30 p.m.

The Ministry Long-Term Care funds Bonnechere Manor to provide three nutritious meals and snacks each day. The Ministry mandates that this funding can only be used for our residents. Therefore, we are unable to serve the guests of our resident’s food, snacks or beverages. We ask your understanding and co-operation in not asking our staff to contravene this requirement and/or consuming resident food. Guests may join the resident for meals in the activity room on the home area as space permits. If a visitor wishes to enjoy a meal with a resident, they are welcome to purchase a meal ticket from reception Monday - Friday between the hours of 9am-3pm, or from the Charge Nurse outside these hours. If a visitor wishes to enjoy a meal with a resident, they are welcome to purchase a meal ticket from reception Monday - Friday between the hours of 8:00 am-4:00 pm, or from the Charge Nurse outside these hours. Food, beverages and candy brought into the Home should be marked with the resident’s name and dated, stored in sealed containers and reported to the nursing staff. There is a refrigerator available on each home area for this purpose. Individual refrigerators are not permitted in resident rooms.

Foot Care Nurse

Basic foot care is provided by the Home nursing staff. If a resident requires advanced foot care, an external Advanced Foot Care Service can be accessed for a fee, by contacting the registered staff on the home area.

Foundation

The Bonnechere Manor Foundation volunteer boards’ mission is to enhance the well-being and quality of life for the residents at the Home through fundraising events. There are a number of options to support this mission, such as In Memoriam donations. In Memoriam cards are available at the Home and all local funeral homes. A tax receipt will be issued for all donations made in memory of a loved one. Another method is through ‘Planned Giving’. Donations can be set in place through bequests, wills or life insurance enabling residents, friends or family members to fulfill their philanthropic goal of supporting Bonnechere Manor. For more information or to set up a planned giving opportunity, contact the Administrative Assistant-Finance at ext. 1243.

Funeral Home

Following a resident's death, the procedure in place calls for the family to contact the funeral home, but typically the RN will offer to call the funeral home on the family's behalf.

Furniture

Resident's rooms are furnished, however residents may substitute their own items for the dresser or the chair. These items must not exceed the dimensions of the furniture they replace. All windows have privacy blinds, however residents may choose to have curtains installed, which must be made from fire retardant material. The resident bed must be used and accessible by three sides for safety reasons. Placement of furniture must be in accordance with the Home policy for the health and safety of both residents and staff. Refrigerators are no longer permitted in resident rooms.

Gift Shop (Ext. 1116)

The Bonnechere Manor Auxiliary Committee operates a gift shop, centrally located on the main floor across from the reception area. In addition to resident crafts, gifts and cards, snacks are available for purchase. The funds generated from these sales are used to enhance the life style of our residents, such as Christmas gifts or equipment items. Gift shop hours are mainly Monday to Friday 1:30 to 3:30 pm.

Income Tax Receipts

A Statement of Accommodation is prepared annually for each resident at the end of February. Bonnechere Manor residents are not eligible for a property tax credit, as Bonnechere Manor does not pay full municipal and school taxes or a full grant instead of taxes.

Infection Prevention and Control

In order to stop the spread of infection, residents who are ill with respiratory symptoms such as a runny nose, fever, cough, chills, or with gastrointestinal symptoms such as vomiting or diarrhea, will be placed on isolation precautions until a diagnosis is confirmed or symptoms pass. Residents will be required to stay in their room for several days, and anyone providing care will be required to wear a gown, gloves and possibly a mask. Family can still visit, but they may have to gown and glove; the nursing staff will have specific directions from the Infection Control Practitioner and will advise the resident at the time. We realize this can be lonesome and hard, however it is a requirement in the Fixing Long-Term Care Act, 2021 and the Provincial Guidelines. The best thing that residents and family members can do to help protect each other and prevent the spread of infection to others is to wash your hands. Please use the alcohol based hand rub outside Resident's room doors, inside the rooms and available throughout the building. Staff are required to wash their hands before and after any direct resident care.

If there are a number of residents on the same home area with similar symptoms as defined by the Ministry of Long-Term Care, it is called an 'outbreak' which means residents will be required to stay on the resident home area at all times until the outbreak is declared over by the Public Health. This means not going to activities, or other areas of the building. An outbreak typically lasts a minimum of eight days but can be weeks, depending on if there are new cases. To help keep outbreaks to a minimum, everyone is encouraged to wash their hands.

Inspections

The Fixing Long-Term Care Act, 2021 (FLTCA) was proclaimed into force to regulate Ontario's long-term care home sector. The Act requires all homes to have current programs related to:

- Falls Prevention and Management
- Skin and Wound Care
- Responsive Behaviours

- Contenance Care and Bowel Management
- Pain Management
- Palliative Care
- Suicide Prevention

These important programs play a role in the care provided to each resident of the Home and an interdisciplinary team provides input to the programs based on best practice. Programs are reviewed annually and as needed. Several times a year, the Ministry of Long-Term Care has inspectors visit every long-term care Home across Ontario to when programs, processes, and services are reviewed.

Internet Service

Free wireless internet is available for residents and guests.

Intimacy

The expression of intimacy, touch, warmth and sexual expression are acknowledged as a natural component of adult life. Bonnechere Manor supports the right of each resident to express their need for intimacy in a supportive and non-judgmental environment.

Labeling of Clothing

New residents must send all their clothing directly to the Clothing Clerk room for labeling. Our clothing clerk will itemize new resident's clothing and apply name labels. When the new resident retires for the night, the nursing staff will send the clothing worn on admission day to be labeled. All clothing gifts must be labeled before they are worn. They should be reported to the nursing staff, which will ensure the clothing clerk labels them. Our laundry service may require four days to return clothing items to the resident. Please ensure sufficient clothing to accommodate this cycle. Please note that clothing hangers are provided.

Laboratory Services

A Laboratory Service, LifeLabs, comes into the Home once a week to draw blood from residents whose physicians have ordered blood work or lab tests and/or transport specimens.

Language Services

Bonnechere Manor is not designated nor identified to provide French Language Services, however in an effort to address the needs of French-speaking or any other non-English language persons we will endeavour to provide information regarding our programs and services in other languages. For electronic information: Please note our website provides a link to language translation services provided by Google Translate TM as a free service to all visitors of the County of Renfrew website.

Current Provincial funding regulations allow each resident to be absent from the Home for the following periods of time:

- | | | |
|----------------|---|---|
| Casual Leave | - | 2 days per week with Sunday being the first day of the week |
| Vacation Leave | - | 21 days per year |

Medical Leave - 30 consecutive days per occurrence

Psychiatric Leave - 60 consecutive days per occurrence

The total daily charge to the Resident/Power of Attorney-Property during a leave of absence will be the accommodation rate.

Mandatory and Critical Incident Reporting

The Home is required to advise the Ministry of Health and Long-Term Care (MOHLTC) when there is an occurrence which poses a potential or actual risk to the safety, security, welfare and/or health of a resident or to the safety and security of the Home. Please be advised of the following from the Fixing Long-Term Care Act (Director refers to the Ministry of Health and Long-Term Care):

Reporting certain matters to Director

28 (1) A person who has reasonable grounds to suspect that any of the following has occurred or may occur shall immediately report the suspicion and the information upon which it is based to the Director:

1. Improper or incompetent treatment or care of a resident that resulted in harm or a risk of harm to the resident.
2. Abuse of a resident by anyone or neglect of a resident by the licensee or staff that resulted in harm or a risk of harm to the resident.
3. Unlawful conduct that resulted in harm or a risk of harm to a resident.
4. Misuse or misappropriation of a resident's money.
5. Misuse or misappropriation of funding provided to a licensee under this Act, the *Local Health System Integration Act, 2006* or the *Connecting Care Act, 2019*.

Note: On a day to be named by proclamation of the Lieutenant Governor, paragraph 5 of subsection 28 (1) of the Act is amended by striking out “the *Local Health System Integration Act, 2006*”. (See: 2021, c. 39, Sched. 1, s. 203 (4))

2021, c. 39, Sched. 1, s. 28 (1)

False information

(2) Every person is guilty of an offence who includes in a report to the Director under subsection (1) information the person knows to be false. 2007, c. 8, s. 24 (2).

Exceptions for residents

(3) A resident may make a report under subsection (1), but is not required to, and subsection (2) does not apply to residents who are incapable. 2007, c. 8, s. 24 (3).

Bonnechere Manor has a duty to report the above to the Ministry of Long-Term Care; however a resident or other persons may do so also.

Medical Assistance in Dying (MAID)

Medical Assistance in Dying (MAID) is legal in Canada. A long-term care home is considered ‘the home’ of the resident. Physicians and nurse practitioners are not obligated to provide MAID – known as conscientious objection. Each resident has an attending physician as his/her resident’s primary healthcare practitioner who is required to provide an effective referral for MAID to a requesting resident. Bonnechere Manor has a policy on MAID that includes:

Referring the resident to the external Care Coordination Service to assess for eligibility for MAID. Subject to the eligibility criteria having been fulfilled

- Coordinating a transfer to another location (i.e. family member’s home in the community) to exercise MAID; or
- Coordinating the provision of MAID onsite, to be carried out by external health care providers

We believe this policy strikes an appropriate balance between the rights of eligible residents who seek MAID and physicians’ right to conscientiously object to carrying out MAID. If you have any questions, please speak with your attending physician.

Medical Director, Attending Physicians, Primary Care Providers

Bonnechere Manor’s Medical Director monitors all medical care in Bonnechere Manor and deals with major medical issues. A resident is able to remain under the care of his/her own attending physician when admitted to the home, provided the physician signs an agreement stating he/she will arrange for 24 hour medical coverage for the patient. Attending physicians, including full-time nurse practitioner are accountable to the Medical Director for meeting the home’s policies and standards of medical care.

Attending physicians and nurse practitioner will assess, plan, implement and evaluate their residents’ medical care and participate in the interdisciplinary approach to care according to the Home and MLTC policies.

Medications

Prescribed medications are dispensed by a Registered Practical Nurse (RPN) and/or a Registered Nurse (RN). Residents capable of safe self-administration of medication may do so with periodic inspection by the nursing staff for compliance. All natural health products and over the counter drugs must be approved and ordered by the physician.

On admission, Bonnechere Manor will obtain a supply of medications as ordered by the resident’s physician. The registered staff maintains a record of the medications the resident requires and receives. All reordering of drugs and ordering of new medications will be taken care of by the nurses in consultation with the resident’s physician or the Medical Director.

All residents' medication profiles are reviewed upon admission and then, at a minimum, quarterly per year thereafter by the attending physician, in conjunction with a Registered Nurse. Residents of Bonnechere Manor will be invoiced individually by the pharmacy in the amount of \$2.00 towards the dispensing fee on every prescription.

Pet Therapy Program

To provide a safe and welcoming environment for pets to visit and for our residents, staff and visitors, there are guidelines in place for both the therapy dog program and informal pet visits. Guidelines for informal pet visits are:

- Pet owners must submit proof of applicable vaccinations being up to date immunization against rabies and DHL (Distemper/Hepatitis/Leptosporosis) at minimum, current picture to the Client Programs Supervisor/designate. The Client Programs Supervisor/designate will meet the pet and confirm if the pet is of suitable temperament for resident visits. If the pet passes the screening, a "Pet PAWSport" will be given to the owner and may be asked to present on entrance.
- The pet is required to be on a leash at all times.

- If an incident occurs, such as biting, scratching, or aggressive behaviour, it must be reported to the Registered Nurse on the Home area immediately.

Pharmacy Services

We have contracted services with a Pharmacy. By the Long-Term Care Standards all medication prescribed must come from specific pharmacy.

Photographs

A Bonnechere Manor staff member takes each new resident's picture on the day of admission and at least annually thereafter. This allows staff to get to know the resident sooner and it's a safety measure for medication administration and evacuation in emergency situations. Upon admission the resident/substitute decision maker will be asked to sign an authorization permitting photos of the resident to be taken for such things as newspapers, the website, newsletters and social media or to be posted in various locations in the Home (i.e., memory collages).

Physiotherapy

The Home has a full-time Physiotherapist and Physiotherapy Assistants on staff. Physiotherapy services are directed towards improving and maintaining functional independence, preventing and managing physical impairments and promoting health and wellness. Once assessed by the Physiotherapist, Physiotherapy Assistants provide residents with individualized or group exercises based on their care needs. For more information call the Physiotherapist at ext. 2049.

Power of Attorney

The resident/designate is asked to identify the person who Bonnechere Manor should notify in case of an emergency. The resident or his/her next-of-kin will also be asked if the resident has given anyone Power of Attorney. Having a Power of Attorney for Property allows the designated person to act on the resident's behalf in a situation when the resident could not act for his/herself in relation to property and finances. Power of Attorney for Property can handle the resident's finances and can sign in relation to his/her assets. A Power of Attorney for Personal Care can make personal care decisions if the resident is unable regarding, for example, treatments or medical procedures. Our Prevention of Abuse/Neglect policy is communicated to all residents/families upon admission as well as to all staff upon hire and through annual re-training. In addition, the policy is posted on the Resident/Family Bulletin Board.

Residents are not required to report however residents have the option to report. Family and volunteers are expected to do so as well.

All incidents are thoroughly investigated by the supervisor or RN in charge of the Home (designate). A report is made to the Director of Long-Term Care/Administrator; if resident abuse or neglect has occurred, disciplinary actions are taken up to and including dismissal of the employee involved.

If there is any evidence of actions of a criminal nature, the Director of Long-Term Care/Administrator or designate will notify the appropriate authorities.

Whistleblowing Protection: No legal or other action can be taken for reporting incidents mentioned above and retaliation (i.e. resident cannot be discharged, staff dismissed or threatened with retaliation such as discipline or suspension).

Workplace Violence Prevention Program

There is a strong connection between the care of residents and worker safety. Our goal is to enhance both. We strive to provide a safe environment for all our residents, staff and visitors. For the protection of everyone, we have a violence prevention program that does not permit any kind of violent behaviour. While we acknowledge that medical conditions or cognitive illness may cause a resident to be violent, by law we are required to communicate to staff the necessary information and preventive measures regarding residents who present a history and/or risk of violent, aggressive or responsive behaviour in the workplace. The process includes:

1. Assessment

- admission and quarterly thereafter for all residents exhibiting violent or threatening behavior
- As required i.e., significant change in condition/incident

2. Communication

- resident/substitute decision maker is informed if resident scores high/very high risk and provided with a brochure with further information
- care plan communicates resident triggers and/or predisposing factors to direct care members and offers appropriate actions that can be utilized to mitigate risk while providing resident care
- non-direct care staff are informed of triggers and interventions

The program is evaluated regularly and adjusted as required.

If anyone becomes aggressive or violent, they may be asked to leave - our goal is to provide the best possible care by keeping our residents, staff and visitors safe.

WiFi

Free wireless internet is offered to residents and guests. Login information is posted on the Resident/Family Communication board and is updated quarterly. Please Note: The County of Renfrew/Bonnechere Manor is not responsible for any issues that may arise from your use of the network.
