Announcements

- On March 30, 2020, on behalf of the County of Renfrew, Warden Robinson signed with much trepidation a piece of paper that effectively put the County under a Declared State of Emergency. Exactly two years to the day, and after consultation with a number of people, the declaration was officially terminated. Warden Robinson indicated that at this point we may not have reason to celebrate, but it is time to begin bringing some normalcy back to our lives. As always, the County of Renfrew will continue to monitor the ever-changing landscape with the goal of doing what is required to keep our residents and staff safe while maintaining our essential services.
- Paul Moreau announced his retirement to County Council and plans to leave in late August/early September. Paul indicated “One of my greatest privileges has been to work with what I believe to be one of the highest performing teams ever at the County of Renfrew. You have shown unparalleled commitment to the delivery of services to the residents of the County and I have been proud to be a part of such an effective and professional team. Together, we have worked through a truly unprecedented time. We could not have anticipated the impacts of a worldwide pandemic and the impact it would have on the County and on our most vulnerable residents. Your response, commitment and willingness to continue to serve our community through this challenging time, demonstrates public service at its best.” Paul will certainly be missed by staff and elected officials.
- County Council passed a resolution to raise the Ukrainian flag at County Administration Buildings until April 30, 2022 to show support to Ukraine and the Ukrainian community

Key highlights

- On March 1, she attended, on behalf of the EOWC, the virtual Ontario Food Summit with Premier Ford, the Honourable Lisa Thompson, Minister of Agriculture, Food and Rural Affairs and Parliamentary Assistants, Randy Pettapiece and Toby Barrett. This was an opportunity to discuss food supply and security, as well as innovation through the value chains and the future of our agri-food supply chain as a whole. Our province’s farmers, food processors and grocery stores have been

working tirelessly to ensure Ontarians have food on their tables, and our province is committed to continuing to support their efforts.

- On March 8, she had the privilege of being the keynote speaker at the Upper Ottawa Valley Chamber of Commerce International Women's Day event. At the meeting, she encouraged anyone who wants to have a positive impact on his or her community to consider putting their name on a ballot, and if anyone is interested in learning about municipal politics and what it entails, to speak to any of the 17 accomplished leaders who sit on County Council who would be happy to share their experiences.
- On March 10, she attended a virtual Garrison Petawawa Business Lunch, along with some of our economic development staff. - On March 11, she traveled to Napanee to chair her very first in-person meeting of the Eastern Ontario Wardens' Caucus. This is the EOWC's annual priority setting session. With the assistance of John Mathieson from Strategy Corp, they narrowed it down from thirteen to three priorities: Affordable and Attainable Housing; Ontario Health Team Governance / Structure; and Health Care Human Resources / Family Physicians. Warden Robinson also sits on AMO's Health Task Force and she has asked to present to the task force members on the EOWC's two health-related priorities at our June meeting. As chair of the EOWC, she sees it as her responsibility to bring issues of concern from the caucus to AMO if they have province-wide implications and certainly OHTs and health care human resources fit that description.

Operations Committee

Presented by: Tom Peckett, Chair

- The Capital Program maps for the planned projects for County Roads and Structures in 2022, including the budget allocation can be found in the County Council report.
- A brief prepared by the Public Works and Engineering Department staff on the findings from research conducted and through discussions with the Ministry of Environment, Conservation and Parks (MECP) on their recently enacted requirements of Regulation 406/19, On-Site and Excess Soil Management Regulation. The research concludes that Regulation 406/19 does not significantly impact County operations or projects.

A webinar session with the Senior Policy Advisor for the Ministry of Environment, Conservation and Parks was held on March 22, 2022 for the County of Renfrew and lower-tier municipal public works staff to overview the Regulation 406/19, On-Site and Excess Soil Management. Staff was directed to develop a policy regarding the management and reuse of excess soils resulting from County of Renfrew capital and maintenance projects and to update the property owner declaration form to meet the consent requirements under Ontario Regulation 406/19. Through feedback received on the circulation of options for establishing funding for growth related projects, it has been recommended by a number of local municipalities that the County proceed with completing a Transportation Master Plan (TMP) in order to better identify those projects resulting from growth and establish the costs associated with them.

In anticipation that the development of a TMP may be of benefit to the County, staff sounded the market in late 2021 and received proposed costs averaging \$188,556 for the services required to establish a TMP. Infrastructure to be considered in the TMP would be to include County Roads, Bridges, Structure Culverts, and Active Transportation infrastructure (trails, hardened shoulders, etc.). A County TMP shall, at minimum:

- Integrate with County and local Official Plans;
 - Establish a vision for transportation within the County and guiding principles supporting the vision;
 - Proactively plan for all modes of travel;
 - Optimize investments in transportation infrastructure;
 - Identify projects not currently included in the 10-Year Asset Management Plan resulting from growth;
 - Identify joint partnership funding opportunities;
 - Provide accessible streets for all ages and abilities;
 - Investigate and provide insights on potential for a County transit system;
 - Encourage seamless, multi-modal travel and transfers between different transportation modes;
 - Promote active lifestyles;
 - Support a vibrant and connected community; and
 - Enhance quality of life for the people who live, work, and play in the County of Renfrew.
- The development of a TMP is anticipated to be a lengthy process, requiring investigation and analysis of all County transportation infrastructure, cooperation with all local municipalities, and review of all policies relating to roads, bridges, trails, and prioritization of works. There will also be opportunity to cooperate with local municipalities who have completed, or are in the process

of completing, a TMP to ensure the County's TMP coincides with the others. It is anticipated that a County TMP will require up to two years to complete.

Our Committee directed the Public Works and Engineering Department staff to issue a Request for Proposal (RFP) for Professional Services to develop a Transportation Master Plan for the County of Renfrew. As the development of a TMP has not been included in the 2022 budget, the funding for this will come from the Working Capital Reserve.

- County Council approved waiving the Tourism Signage fees on County Roads for 2022, and the Tourism Signage fees will be reinstated in January 2023. Warden will send a letter to the Honourable Lisa MacLeod, Minister of Heritage, Sport, Tourism and Culture Industries requesting the Ministry to consider suspending the Tourism-Oriented Directional Signing (TODS) fees in 2022.
